

Make Things Possible

Pacific Pipe Public Co., Ltd.

Corporate Profile

Corporate Profile

Pacific Pipe Public Company Limited was established in 1972 in the name of “**Tang Mong Seng Factory**”, originally producing toy cars. By the year 1991, the company has expanded in to producing and distributing various types of steel pipes under the name of Pacific Pipe Company Limited.

Pacific Pipe Company Limited has been growing and expanding economically since the establishment. As a result, the company is registered as Pacific Pipe Public Company Limited in 2004.

Therefore, we are Thailand’s the leading company in producing and distributing steel pipes, which includes steel pipes used in construction, and pipeline systems. Our products include round steel pipes, square steel pipes, rectangular steel pipes, lip channel steel pipes, black steel pipes, galvanized steel pipes, and primer-coated steel pipes as to your requirement.

In the present, our company has the capability to manufacture black steel pipes and lip channel steel pipes in the total of 450,000 tons, and 50,000 tons of galvanized steel pipes per year.

With our experience and expertise in producing high quality steel pipes by using advance machineries and modern technology in coherence with quality control department under the supervision of highly qualified engineers, our products are qualified and meet the international standards. Moreover, our products are certified by many international standards and widely recognized in both domestic and international markets.

VISION

Your Partner For Total Solutions.

MISSION

- 1) Being innovative in producing, distributing, and delivering outstanding quality steel pipes with punctuality and competitive price.
- 2) Enforcing up to date employee and technological development, providing excellent employee management in all levels.
- 3) Being a major part in the progresses of the economy, society, and environment of the nation.
- 4) Providing valuable businesses and creating sustainable benefits for involving associates.

VALUE : CHANGE

Creativity

Harmony

Product

Steel Pipes That Pacific Pipe Public Company Limited Produces Can Be Categorized In To 3 Main Types :

1

International industrial standard steel pipes

Products that are used for the structure purposes in construction and for pipeline systems. The steel pipes consist of chemical components, dimensions, thickness, weight etc. comply with the international standard specifications :

Specification		for Piping System	for Structure Purposes
ASTM	American Society of Testing and Materials	ASTM A53, ASTM A795	ASTM A500
AS	Australian Standards	AS 1074	AS 1163
BS	British Standards	BS 1387	BS 1139
DIN	Deutsches Institut für Normung e.V.	DIN 1626	DIN 17120
EN	European Standards	BS EN 10255	BS EN 10219
JIS	Japanese Industrial Standards	JIS G3452, JIS G3454	JIS G3444, JIS G3466
TIS	Thai Industrial Standards	TIS 276, TIS 277, TIS 427, TIS 770	TIS 107, TIS 1228

2

Company Standard Steel Pipes

Products that are used in minor construction works such as awning frames, doors, fences, railing, stables and stockyards, tents, agpoles, etc. The steel pipes consist of chemical components, dimensions, thickness, weight etc. comply with company standard specifications :

- Round Pipes
- Square Pipes
- Rectangular Pipes

Types Of Pipe Coating :

- Black Coating
- Primer Coating
- Galvanized Coating

3

Customized And Made To Order Steel Pipes

Products that are used for industrial purposes so as to be assembled into other forms of products. Our company is able to manufacture the steel pipes that have dimensions, weight, tolerance etc. according to customers requirement.

Applications-Specifications- Raw Material Grades

Carbon Steel Pipes for Ordinary Uses and Piping System
